Bethel Academy.

GENERAL INFORMATION.

The Academy is situated in the pleasant and rural village at Bethel Hill, on the Atlantic and St. Lawrence Railroad. It overlooks the valley of the Androscoggin, while the mountain scenery in the distance, renders the whole prospect delightful. The building has recently been fitted up in a tasteful and commodious manner, and will accommodate one hundred and fifty students. It has been in successful operation for seventeen years, and liberally patronized by an intelligent community. The course of instruction is essentially as follows. All under twelve years, are, in addition to the ordinary English branches, daily drilled in English composition and History. Special attention is given to those fitting for College, Teaching, or the Counting Room. Facilities are furnished to young Ladies for acquiring a knowledge of the solid and ornamental branches. In the government and instruction of the school, such methods will be employed as shall best expand, and discipline, the intellectual and moral powers. Parents will always do well to consult freely with the Principal. The Cabinet of Minerals, Geological speci-

mens, Plants and Shells, is extensive and well arranged, furnishing every desirable facility to the student. The advantages for instruction in practical Chemistry, it is believed, are not excelled in this State. Experiments, and illustrations, and a practical application of the science, is made at every recitation. A good Library is connected with the U. B. Society, to which ladies have access free from expense, and gentlemen by the payment of a small fee. Lectures are given weekly, on some branch of Natural Science, Teaching, or English Literature.

Surveying will be taught by field practice.
